End of the Year

Summary

34+ **LPBs**

Lion Proof Bomas constructed to protect livestock from carnivore attack around Katavi and Ugalla River National Park, Luganzo Tongwe Game Reserve, and Msaginia Forest Reserve to make a total of 50 Lion Proof Bomas, which secure over 2200 livestock worthy over 459,592 USD.

1496+ **HA**

Hectares of village Natural Forest Lands are Preserved in our landscape as a result of the Greening Initiative within project villages.

5000+ **CE**

Community Members Engaged through our Environmental Education and Outreach program, raising awareness and fostering positive changes in conservation practices by enhancing community knowledge.

2000+ **YE**

Youth Engaged through school wildlife clubs to promote conservation, foster skills, and instill a conservation spirit with class presentations, talks, creative activities, and ecological studies.

New Collaborative Project to reduce Human-Wildlife Conflicts

2024 experienced a collaborative project with our partner Wild Survivors on the "Elephant Protection and Habitat Restoration through Sustainable Community Livelihoods" initiative. This project aimed to reduce human-elephant conflicts and promote sustainable livelihoods, particularly empowering women's groups.

Key activities include;

- **Beehive Fences: Protecting crops and communities while supporting honey production.**
- **Wildlife population Monitoring: Using audio sensors and camera traps to gather data on wildlife populations.**
- **Habitat Restoration: Enhancing and protecting natural habitats.**
